EDUCATION

Master of Environmental Data Science (MEDS) July 2026 – June 2027

Bren School of Environmental Science & Management

University of California, Santa Barbara (UCSB)

Highlighted Coursework: Geospatial Analysis, Scientific Programming,
Ethics & Bias in Environmental Data Science

B.A. Biology (Ecology & Evolution)

Aug 2022 – May 2026

Washington University in St. Louis (WashU), St. Louis, MO

Honors/Awards: Dean's List, UAA Academic All-Conference

Leadership/Involvement: NCAA Cross Country (National Championships
Qualifier), NCAA Track & Field (All-Conference), Climbing Club, Green Action

Study Abroad: The University of Queensland; Brisbane, Australia (Fall 2024);

Marine Biology coursework

EXPERIENCE

Student Researcher – Carlson Lab at WashU; St. Louis, MO Sept 2023 – June 2026

- Conducting research on foraging/navigational behavior, respirometry, and neurophysiology in Mormyrid fishes
- Responsible for behavior and respirometry experiments, fish handling and care, and analyzing/processing data using R

SSI REU Intern – California Academy of Science, San Francisco, CA

May – Aug 2025

- Conducting research on reptile population structure in island systems using genetic sampling, population genetics, and phylogenetics methods.
- Experience in museum-based research and molecular lab techniques (PCR, DNA extraction/quantification, etc.), as well as data analysis in R

Laboratory Assistant – Stillman Lab at San Francisco State University

May – June 2024

- Researching thermal tolerance, embryonic development, and developmental plasticity in shore crabs
- Responsible for heat shock experiments, imaging (microscopy & ImageJ), extracting embryos, and animal care
- Also assisted with field studies and specimen collection.

ADDITIONAL EXPERIENCE

Coach – Bear Cubs Running Team, St. Louis, MO

Jan 2025 – May 2026

Provide mentorship and community through sport for children with developmental disabilities

Photographer

Teacher/mentor for children's photography summer camp, as well as freelance work for school newspaper, collegiate athletics news outlet, local non-profit, etc.

SKILLS

Computational: R, Python, MatLab, Microsoft Office, Lightroom/Photoshop

Wet Lab: PCR, gel electrophoresis, DNA extraction/quantification/sequencing, microscopy
